Licensed by the California Board of Accountancy Member: American Institute of Certified Public Accountants

To the Board of Directors Inland Action, Inc.

Management is responsible for the accompanying financial statements of Inland Action, Inc. (a nonprofit organization), which comprise the statement of financial position as of December 31, 2019, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. We do not express an opinion, a conclusion, nor provide any assurance on these financial statements.

Cash and cash equivalents		
Balance, beginning of year	ē	63,298
Balance, end of year	\$	59,419

#### **Notes to Financial Statements**

## 1. Summary of Significant Accounting Policies

#### **Nature of Activities**

Inland Action, Inc. (the Organization) was incorporated on September 17, 1962 under the California Nonprofit Corporation Law for the purpose of assisting and encouraging the economic well-being and betterment of the Inland Empire region of Southern California. Membership in Inland Action, Inc. is voluntary for any person, association, corporation, partnership, or estate having an interest in the objectives of the Organization. Inland Action Inc.'s major activities and programs include legislative activities in Sacramento, California and Washington D.C. as well as the local area and includes meetings with legislators and other government officials.

The preparation of these financial statements requires management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of cash receipts and disbursements. Actual results could differ from those estimates. Management also determines the accounting principles to be used in the preparation of these financial statements. A description of the significant accounting policies employed in the preparation of these financial statements follows:

#### **Basis of Accounting**

The financial statements of the Organization have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables, and other liabilities.

#### **Basis of Presentation**

The financial statements are presented in accordance with the provisions of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958, *Not-for-Profit Entities*. Under ASC 958, the Organization is required to report information regarding its financial position and activities in two classes of net assets:

- Net assets without donor restrictions are net assets not subject to donor-imposed restrictions or law.
- *Net assets with donor restrictions* are net assets subject to donor-imposed restrictions that can be fulfilled by actions of the chapter pursuant to those restrictions or that expire by the passage of time.

### Cash and Cash Equivalents and Investments

Cash and cash equivalents include cash held in checking and money market accounts and time deposits, certificates of deposit, and other highly liquid investments with original maturities of three months or less.

#### **Concentrations of Credit and Market Risk**

Financial instruments that potentially expose the Organization to concentrations of credit and market risk consist primarily of cash and cash equivalents. Cash and cash equivalents are maintained at high-quality financial institutions and accounts at each institution are insured by the Federal Deposit Insurance Corporation or by the Security Investor Protection Corporation up to \$250,000. At December 31, 2019, the Organization had no uninsured balances.

See independent accountants' compilation report.

#### **Notes to Financial Statements**

### 1. Summary of Significant Accounting Policies (Continued)

#### **Deferred Revenue**

Membership dues collected prior to the fiscal year to which they apply are deferred and recognized over the periods to which the dues relate.

#### Revenues

The Organization records revenues when earned, which consists primarily of dues and sponsorships for the Organization's activities.

### Equipment

Equipment is stated at cost or, if donated, at the approximate fair value at the date of donation. The Organization uses the straight-line method for depreciation of equipment over the estimated useful life of the asset, which is from five to seven years.

Maintenance and repairs are charged to expense as incurred. Equipment purchased or received by donation in excess of \$150 is capitalized.

### **Tax Status**

Inland Action, Inc. is a not-for-profit organization exempt from federal income taxes under Section 501(c)(6) of the Internal Revenue Code. Inland Action, Inc. has previously received letters of determination from the Internal Revenue Service and the California Franchise Tax Board, which state that the Organization is exempt from taxation.

Management believes that all of the positions taken by the Organization in its federal and state income tax returns are more likely than not to be sustained upon examination. The Organization's tax returns are subject to examination by the Internal Revenue Service and the California Franchise Tax Board, for three and four years, respectively, after they are filed.

### **Functional Allocation of Expenses**

The costs of program and supporting services activities have been summarized on a functional basis in the statement of activities. The statements of functional expenses present the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited. The financial statements report certain categories of expenses that are attributable to more than one program or supporting function and therefore, require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include personnel expenses and depreciation. These expenses are either allocated on a basis of time efforts and purpose.

#### **Notes to Financial Statements**

### 2. Equipment

At December 31, 2019, the Organization's equipment included the following:

Furniture and office equipment	\$ 16,948
Computer equipment	6,152
Website – Re-design in progress	15,733
	38,833
Less: accumulated depreciation	(18,365)
Balance, December 31, 2019	\$ 20,468

Estimated costs to complete the re-design of the website is \$7,916.

#### 3. In-Kind Rent

The Inland Valley Development Agency (IVDA), a member of the Organization, provided a small office and a telephone line, in exchange for monthly dues payment of approximately \$285. Total in-kind rent paid was \$3.423.

### 4. Liquid Resource Management

The Organization regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Organization considers all expenditures related to its ongoing program activities as well as the conduct of services undertaken to support those activities to be general expenditures.

As of December 31, 2019, the following financial assets could readily be made available within one year of the balance sheet date to meet general expenditures:

Cash and cash equivalents	\$ 59,419
Certificates of deposit	56,924
Accounts receivable	4,130
Financial assets available for general expenditure	
over next 12-months	\$ 120,473

In addition to the financial assets available to meet general expenditures over the next 12-months noted above, the Organization has other current assets and deferred revenue that will likely be converted to cash or available for general expenditures during the normal course of next year's operations. Such current assets include the Organization's prepaid expenses.

#### **Notes to Financial Statements**

### 5. Prior Period Adjustment - Change in Accounting Principle

During 2019, the Organization changed its method of accounting from the modified cash basis of accounting to full accrual in accordance with accounting principles generally accepted in the United States of America. The Organization believes the full accrual method provides a more meaningful presentation of its financial position and activities. The effect of the accounting change was to decrease the change in net assets for 2019 by \$18,644. The financial statements for 2018 have been restated to apply the new method retroactively, which resulted in an increase in the change in net assets for 2018 of \$7,227. Net assets without donor restrictions as of the beginning of 2019 has been decreased by \$34,671 for the effect of retroactive application of the accounting method.

### 6. Subsequent Events

Events or transactions that occurred after December 31, 2019 up through May 28, 2020, the date the Organization's financial statements were available for issuance, were reviewed for subsequent event accounting and disclosure.

Subsequent to December 31, 2019, as COVID-19 spreads globally, local, U.S., and world governments have encouraged self-isolation to curtail the spread of the global pandemic, by mandating temporary work stoppage in various sectors, limiting travel, size and duration of group meetings. Most industries will be experiencing disruptions to their business and operations. There is unprecedented uncertainty surrounding the duration of the pandemic, its potential economic ramifications, and any government actions to mitigate them. While management cannot quantify the financial and other impact to the Organization as of May 28, 2020, management believes that a material impact on the Organization's financial position and results of future changes in net assets is reasonably possible.
